

**WEB  
STATS!**

# SEMINARS

*All about our new website*

We asked people like you how they wanted to search and get information from us at Statistics New Zealand. We listened, and have transformed **www.stats.govt.nz**.

Come along to one of our free Web Stats! seminars to see the valuable and free information we have on our new website. At the seminar you will discover:

- ◉ **How to navigate the new website**
- ◉ **How to use our two online tools – Infoshare and Table Builder**
- ◉ **What key statistical information is available about your area**
- ◉ **Examples of how to use our information for businesses and communities.**

The presentations are informal and the content is designed to benefit everyone from first-time users of statistics to those with more experience.

We'll have computers available after the presentation, to look at information that may be of particular interest to you.

#### TO REGISTER:

Go to [www.stats.govt.nz/webstats](http://www.stats.govt.nz/webstats) to find out where and when a seminar will be held in your region, and to register. You can also register by contacting our Information Centre, toll-free on 0508 525 525.

**Each venue will have a limited capacity, so register now to avoid disappointment.**
